

NODE.JS

1. Installing Node.js and Visual Studio Code.
2. What is Node.js?
3. What is NPM?
4. What is package.json file?
5. What is mvc?
6. How Node js architecture works?
7. Why Should I Use Node.js?
8. Node.js built in Module System.
9. What is REPL in node js?
10. What is Asynchronous process Node.js?
11. What is promises in node js?
12. Setup basic server with node js.
13. What is http module in node js?
14. What is callback function in node js?
15. Write any example of callback function.
16. Write a any txt file using fs module with different type of permission
17. Write a program to find my system specification with built-in module.
18. What is Express.js?
19. Install Express.js
20. How to error handling in express.js?
21. What is Express.js Middleware?
22. What is router in express js?
23. Write a program to setup basic server with express.js
24. Write a program to setup basic folder structure with express.js
25. Write a program to setup basic auth system using middleware in express.js

Generate this why of folder structure: -

	config	20-10-2023 01:43 ...	File folder	
	controllers	20-10-2023 01:43 ...	File folder	
	db	20-10-2023 01:43 ...	File folder	
	handlers	31-07-2023 12:01 ...	File folder	
	interface	20-10-2023 01:43 ...	File folder	
	libs	20-10-2023 01:43 ...	File folder	
	middleware	20-10-2023 01:43 ...	File folder	
	models	20-10-2023 01:43 ...	File folder	
	routes	20-10-2023 01:43 ...	File folder	
	views	31-07-2023 11:56 ...	File folder	
	app.ts	05-12-2023 12:40 ...	TypeScript Source ...	2 KB
	swagger.json	05-12-2023 12:40 ...	JSON Source File	2 KB

Ignore the swagger.json file and convert all files to .js format instead of .ts.
